SUMMARY

MCA student at Vellore Institute of Technology with strong skills in MERN stack development, Data Structures and full-stack web application development. Experienced in building scalable applications using React, Node.js MongoDB, and Express.js. Passionate about solving real-world problems through efficient software solutions.

Education

Vellore Institute of Technology, Chennai, India	2025 - 2027
Master of Computer Applications (MCA)	CGPA 9.15
Vellore Institute of Technology, Vellore, India	2022 - 2025
Bachelor of Computer Applications (BCA)	CGPA 8.9

Skills

Programming Languages: Python, C, C++, Java, JavaScript
Frontend Development: HTML5, CSS3, React.js, Bootstrap
Backend Development: Node.js, Express.js. Database: SQL, MongoDB
Tools & Technologies: Git, REST APIs, JWT Authentication

Projects

Portfolio

Website: <https://shambhu-pandey.github.io/PORTFOLIO/>

- Built a responsive developer portfolio to showcase web development projects and technical skills.
- Built interactive UI components using **React and JavaScript** with efficient state management.
- Organized projects into categories including **React applications, JavaScript tools, and UI design projects**.
- Implemented **responsive design using CSS and Bootstrap**, ensuring compatibility across multiple devices.

1. Learning Management System (LearniT)

Website: <https://lms-learniT-frontend.onrender.com>

Tech Stack: MongoDB, Express.js, React.js, Node.js, JWT, Bootstrap

Built a full-stack Learning Management System (LMS) enabling students and instructors to manage and access educational content efficiently.

- **User Authentication:** Secure signup/login for students and instructors using JWT.
- **Course Management:** Add, edit and delete courses with categorization (HTML, CSS, JS, React, etc.).
- **Content Delivery:** Embed YouTube Videos upload PDFs, notes, and code examples.
- **Live Virtual Classroom:** Enabled real-time video meetings between students and instructors.
- **Quiz & Assessment:** MCQs , Assignments and code challenges.
- **Student Dashboard:** Track enrolled courses, progress percentage, and earn certificates.
- **Admin Panel:** Manage users, courses, and quizzes with analytics.

2. Smart Ambulance Dispatch System

Github : https://github.com/shambhu-pandey/Ambulance_Dispatch_System

Tech Stack: HTML, CSS, JavaScript, Bootstrap, Java, Spring Boot, RESTful APIs, MongoDB.

- Developed a **Real-time** Ambulance Dispatch System with role-based access for Admin, Drivers and Users along with emergency management dashboards.
- Implemented **Dijkstra shortest-path** algorithm to automatically assign the nearest available ambulance and nearby hospital during emergency situations.
- Built features like live ambulance Details, **Emergency request handling**, patient/hospital management dispatch history, and notification system for faster emergency response.

Academic and Extracurricular Achievements

- Participated in Solve-thon, gaining experience in problem-solving and collaboration.
- Volunteered at Riveria, contributing to event organization and management in college.

Certifications

- HTML, CSS and JavaScript — Coursera : coursera.org/certificate
- Simplilearn React.js : simplilearn.com/skillup-certificate
- Simplilearn Data Structures and Algorithms : simplilearn.com/skillup-certificate
- Supervised Machine Learning Coursera : coursera.org/certificate
